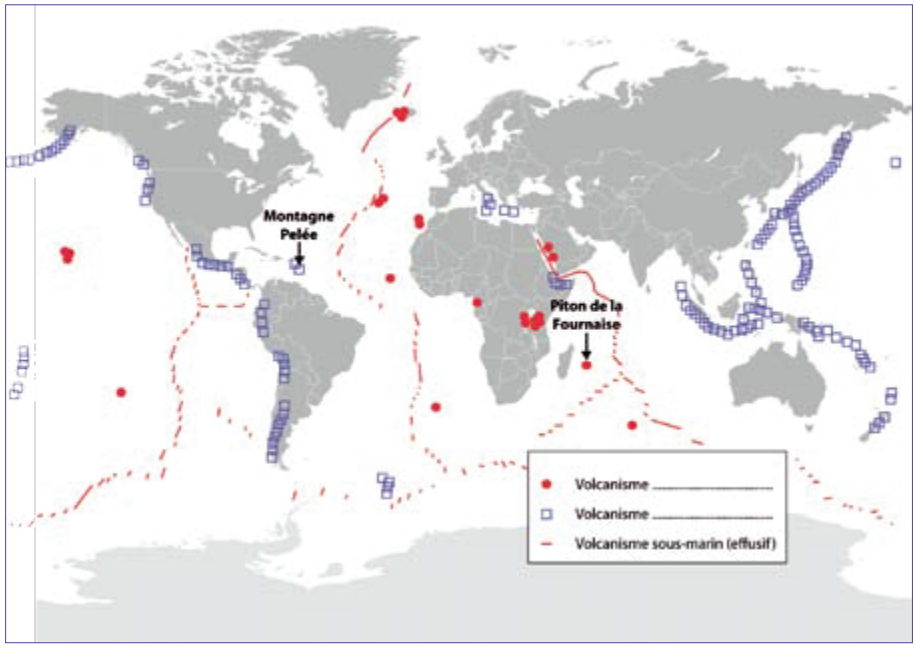
Sheet 15 - Assessment of sequence 1 (part 5)

14. Here is a map of the distribution of volcanoes in the world.



Locate on the map the two volcanoes quoted in the texts: the piton de la Fournaise and Mount Pelée. From information which you discovered on these two volcanoes, complete the legend of the map by indicating if the points and the squares representing the volcanoes correspond to effusive or explosive volcanism.

Item 20	0	1	9

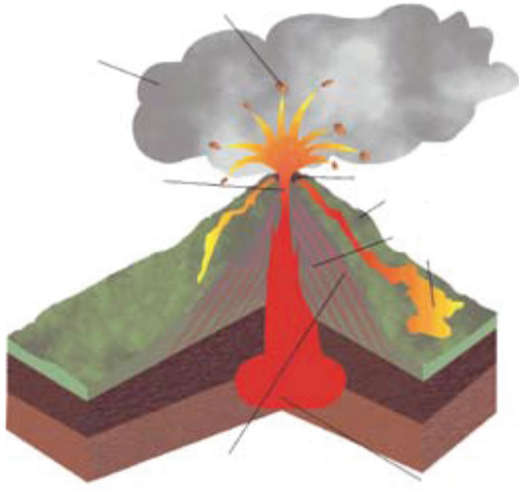
15. Where are the majority of the volcanoes located on our planet? (*Write a sentence*)

.....

.....

.....

Item 21	0	1	9
Item 22	0	1	9

16. Complete the diagram of the volcano with the following words:
volcanic bomb / chimney / ash cloud / crater / lava flow / cone / magma chamber


Item 23	0	1	9
