

Discover the project "When the Earth rumbles"

The following translation is graciously provided by [ISTIC](#).

When the Earth rumbles is a pluridisciplinary project on risk education, fitting to the primary school Cycle 3 curriculum (pupils aged 8-11).

- [Why study natural risks at school?](#)
- [Summary and objectives of the project](#)
- [PPT presentation](#)
- [Description of the pedagogical guide](#)
- [French A4 poster](#) (PDF, 9 Mo)
- [The project partners](#)
- [The project team](#) (authors, testers, helpers, scientific and pedagogical consultants...)

Everything you ever wanted to know about the project is downloadable in the [press dossier](#) (in French).
