

Planning a Scenario for making choices

Everyday Object:	Age of students:
Scenario:	
What is the choice to be made?	
What are the different possible roles/viewpoints?	
How will you present the scenario?	What resources will you need for each of the roles?
Potential environmental factors:	
Potential economic factors:	
Potential social/cultural factors:	
Are there other things you would like to know? What other evidence or data might you, or your students, want?	
Can you suggest how this scenario might be adapted to raise different issues?
